Claims 1-74 are pending in this application. Claims 7-74 have been withdrawn from consideration. As such, claims 1-6 are considered below.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants have not complied with 37 CFR 1.821(d) which requires reference to the sequence that is set forth in the claims by use of the sequence identifier, preceded by "SEQ ID NO:", even if the sequence is also embedded in the text of the description or claims. For instance, claim 2 (which depends from claim 1) recites "...comprises residues 77-95 of the RhoA protein..." yet fails in reciting the sequence identifier corresponding to the peptide of claim 1. It is also noted that a sequence identifier corresponding to the peptide of claim 1 has not been submitted
